

The CodeRED mass notification is now in effect for residents and businesses in Bradford County. Residents with landline telephones have been automatically registered through the 911 system, but cell phone users must register their numbers with the CodeRED system.

Go to the county website, <http://www.bradfordcountypa.org>, click on the CodeRed Weather Warning link at the bottom left of the page. You can register up to two cell phones and can choose to receive alerts via email addresses and text messages. Your contact information will remain private.

When called, caller ID will display the telephone number [800-566-9780](tel:800-566-9780). If you'd like to hear the last message delivered to your phone, simply dial this number back.
